

Our website is <https://blockybites.com>. Currently, we have a merchandise section on the home page. We want to keep this preview page, but we want the four preview items to show the price, item name, and a button that says "Shop Now". The four items we want are as follows:

- Note: for now we are just going to use the same product images and descriptions. We want to see the front end layout before providing all of the specific product descriptions / images for each individual product.
- Include 1.png and 2.png (sent via fiverr)

Note: for each t-shirt item we want a “flip” button in the top-right corner of the image that does a flip animation and shows the back-side of the t-shirt. It looks like the below:

- If you put your mouse over this icon, it flips and shows the back of the t-shirt.
- If you CLICK on the item or “SHOP NOW”, it will take you to the full blown-out item page

Items to be listed:

- To be provided once the front-end layout is complete.
